

GOVERNORS PROFILE

Name: Chris Liston

Role: Co-opted Governor

Elected as Co-opted Governor July 2021 to July 2025

Registered Interest: Personal relationship with staff, pupils or governors.

Hi, I'm Chris, a co-opted governor at Liscard primary school. My relationship with the school started in 2015 when my eldest child joined. Six years later I now have three girls in different years ranging from year four to foundation.

My background is largely in singing and theatre where I have performed for many years in a mixture of professional, semi professional and amateur work. I have brought this passion into Liscard Primary many times over the years reading to different classes and gained a huge amount of enjoyment in doing so.

As far as my main employment is concerned, for the last eleven years I've worked for Apple both in the retail and corporate arm. My day to day responsibilities lie in driving for results and also training, coaching and mentoring and this is where my main passion sits. While doing this I have often ran sessions of more than a few hundred people often all over America so I have no problem speaking and presenting to large groups.

So that's my background, but I wanted to mention what I'll bring to this role as well. I'm a firm believer that early education is a partnership between the school, parents and students. I see my job as making sure that Liscard consistently reaches the standards that it sets itself. I love a challenge and will always fight for what I believe in. I look forward to seeing you all around school.
